MENGRANDUM FOR: Chief, PP/ICB

SELTECT:

AmComlib Suggestions for Schremm Conference

The following suggestions submitted by AnComLib for the forthcoming Schramm Conference on radio broadcasting are referred to you for consideration in the interests of a coordinated CIA position on the subject:

- 1. That the Conference agenda approach be topic-by-topic instead of country-by-country, citing these resons:
 - a. All participants in the conference are interested in all topics.
 - b. All are not interested in all countries.
 - c. New ideas for propaganda policy and programming are more likely to be fortheoming in an interchange of views topic-by-topic.
 - d. The initial emphasis should be placed on the propaganda problems and not on the country problems.
- 2. That under each topic the discussion be led off by the representatives from the Moscow mission on the grounds that:
 - a. The USSE is propaganda target No. 1.
 - b. The USER is the oppressor, the coloniser, the power behind what is happening in all the areas to be discussed.
 - c. What happens in the USER has a bearing on the situations in the other countries and provides a logical focal point for discussion.

Mission representatives from Poland, Eungary, Csechoslovakia, Rumania, Bulgaria and Yugoslavia should follow the Moscow representative under each topic in that order.

3. It also

- 3. It also recommends the inclusion of the following in the pre-conference questions transmitted to the missions under para. a. of the General Background Section: "Soviet attitudes towards satellites, China, Tagoslavia, and uncommitted countries."
- 4. Associab recalls that at last year's Schraum Conference it was reported that a questionnaire for interrogation on the attitudes of the public had been prepared, and adds: "It is to be hoped that the enguers to this questionneire have been collated and that the estimated attitudes will be presented to the group at this year's Conference."
